FM ***Risk Prevention*** Trailer Tour

On July 30 Chapter members made a special summer field trip and visited the FM Risk Prevention Trailer while it was in NJ. We saw demonstrations about the fire hazards of Aluminum Composite Panels (ACM), sprinkler head flow demonstrations, the ways flood attacks buildings and neighborhoods and ways to protect against it, the wind and fire hazards of rooftop solar voltaic panels and how they compromise the fire rating of existing roof coverings along with several other risk/protection topics. It was a very informative visit. Thanks to FM and to Chapter President Marvin Maradiaga for organizing.

Chapter Summer Planning Meeting

Notice: Chapter Officers and Trustees will be meeting August 13th in Parsippany, NJ to put together the Chapter Sept '24 through June '25 training program and events. The Chapter Board would like to know what presentations you are interested in and would like to see at our meetings. Also, as a group what kind of events interest you that we can do as a Chapter. If you have any ideas for speakers, topics or group events please pass on the information to the Chapter Administrator Vicki at vicki.Serafin@affiliatedfm.com.

InstaSeal® technology eliminates need for wrenches and additional sealants

The game-changing InstaSeal® System, which centers around a gasketed welded pipe outlet and the revolutionary "Torque-Assist" protective sprinkler cap, promises to streamline the installation process for sprinkler fitters across the industry! Viking SupplyNet and Viking Fabrication Services offer a fabricated pipe featuring InstaSeal fittings in 1" welded outlets compatible with Viking's 1" ESFR sprinklers and equipped with the Torque-Assist cap.

Features and advantages of InstaSeal® Systems:

- No thread tape or sealant needed, eliminating mess and additional time-consuming installation steps
- InstaSeal Systems are cULus Listed and FM Approved
- Advanced Torque-Assist cap technology allows for hand-tightening of the sprinkler, reducing the risk of damage during installation and making it easier than ever to install
- Use Viking SupplyNet's fabricated pipe featuring 1" InstaSeal fittings with Viking's ESFR sprinklers to ensure perfect compatibility every time
- Maximum working pressure of 175 psi (12 bar)
- 3/4" and 1/2" InstaSeal fittings are coming soon!

For more information, please contact your Viking SupplyNet sales representative or visit our website at **vikinggroupinc.com**.

TECHNICAL SPECIFICATIONS

System:	InstaSeal®
Part Numbers	
Gasket Tool Kit	25022
Replacement Gaskets	25712M
Pipe Adapter Bushing	24551
Listings/Approvals:	cULus Listed FM Approved
Connection:	1" NPT
Sprinkler Compatibility:	Viking 1" ESFR Sprinklers
Finish Material:	EPDM Rubber
Alignment Tool:	24838
Technical Datasheet:	F_021223
