Officers and Trustees Nominations 2026-2027

In accordance with the Incorporated Bylaws of the SFPE New Jersey Chapter, Inc. the following is the proposed slate of Officers and Trustees including terms of service indicated below for Officers and Trustees. The election is scheduled to be conducted at the Chapter's annual business meeting to be held during June 8th, 2026.
We are electing new Officers and two Trustees

Officers (One Year Term – August 1, 2026 to July 31, 2027)

President – Richard Reitberger
Vice President – Carl Monesmith
Secretary - Joe Janiga
Treasurer – Evan Fitgerald

Trustees (Three Year Terms – Alternating Years)

Jim Loftus	(**3 Year Term July 1, 2025 to June 30, 2028)**
Victoria Valentine	**(3 Year Term July 1, 2026 to June 30, 2029)**
Ernesto Vega-Janica	(**3 Year Term July 1, 2024 to June 30, 2027)**
Mark Bagniewski	**(3 Year Term July 1, 2025 to June 30, 2028)**
Dave Davis	(**3 Year Term July 1, 2026 to June 30, 2029)**

Nominating

Evan Fitgerald
Dave Gluckman
Jerry Naylis

The Chapter encourages volunteers to serve in leadership roles on the Board or on Committees.
Any member who desires to run for Chapter Office, Trustee or serve on a committee is encouraged to do so by contacting the Secretary Joe Janiga at jwjaniga@gmail.com at least 4 weeks before our annual meeting in June.

Maximize flexibility with UL Listed Data Center Upgradeable Systems

The Data Center Upgradeable System is a pre-trimmed dry system riser designed for quick and easy field conversion to a preaction system—without replacing the main valve. It features an A-1 Differential Valve and includes all key system components in one packaged solution, designed for applications like data centers. Available in sizes from 1-½" through 8", the Data Center Upgradeable System is cULus Listed and offers flexibility for versatile spaces.

Features and advantages of Viking's Data Center Upgradeable System:

- Utilizes a Viking Model VXD Deluge valve and trim as a dry pipe system that can be easily upgraded to a single- or double-interlock preaction system
- Includes unions at release for easy preaction conversion
- Features a robust 6:1 differential design with the A-1 Differential Valve to control the water supply to the sprinkler system piping that is equipped with closed sprinklers
- Each riser includes key system components—valve, trim, check valve, pressure switches, drains and gauges—ready for install right out of the box
- PTR trim offered with or without additional isolation butterfly valve
- Multiple sizes available to meet your unique system needs

For more information, please contact your Viking sales representative or visit our website at **vikinggroupinc.com**.

c UL us

General reference only. Prior to the design, layout, and/or installation of any sprinkler system, please refer to Viking's technical documentation and consult with the AHJ.
